ROeS 2027 Call for Topic-Contributed Sessions

35th Conference of the Austro-Swiss Region (ROeS)

Augmenting Statistics:
Better and faster data-driven decisions

This conference of the Austro-Swiss Region (ROeS) will take place in Bern, Switzerland, 16th – 19th of August 2027.

We invite proposals for topic-contributed sessions on topics related to the conference theme 'Augmenting Statistics: Better and faster data-driven decisions.' Topic-contributed sessions are ***80 minutes*** long and feature four contributed speakers around a common topic. Possible session formats include

- Four contributed speakers (20 minutes each)
- Three contributed speakers (20 minutes each) and one discussant (20 minutes)
- Up to two contributed speakers (40 minutes in total) and panel discussion with the speakers and up to three additional panellists (40 min)

The session organizer must confirm that all proposed speakers have agreed to participate. Once registration opens, all proposed speakers will be required to submit an abstract via the online submission system.

Please note the following conditions: a) each speaker can give *only one talk* at the conference (this restriction does not apply to discussants or panelists), b) please ensure that not all speakers in the session are from the same organization.

The ROeS organizers are committed to promoting diversity and inclusion in the scientific program. Please ensure that your proposal reflects this commitment by considering equitable geographical representation, gender balance, and diversity of career stages among the proposed speakers.

Please submit proposals using the online form available here. The form is also available at the conference website https://roes2027.org/. Please note that only fully completed proposals will be considered. For questions or technical assistance please contact organizers@roes2027.org.

Deadline: December 11, 2026

Notification of acceptance: December 23, 2026
